## **Section 1: Program Overview**

This section provides an overview of the Iowa CASA Program as it relates to the mission, purpose, governance, and affiliations.

### **A. Mission and Purpose of Iowa CASA Program**

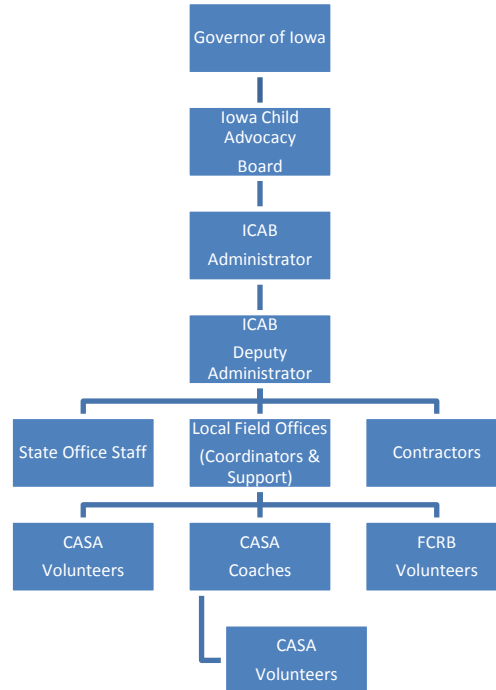

1. The Iowa Court Appointed Special Advocate (CASA) program commissions trained and qualified community advocates to serve as an effective voice in court for abused and neglected children, strengthening efforts to ensure that each child is living in a safe, permanent and nurturing home.
2. The Iowa CASA program recognizes the importance of advocating for the best interests of abused and neglected children in the court system. The goal of the Iowa CASA program is continued development and expansion of an active CASA program (advocates recruited, screened, trained, and assigned to cases, with supervision and program assistance available) in all of Iowa. The Iowa Program has been granted the legal authority to operate in all of Iowa's 99 counties.
3. The child population served by the Iowa CASA program is clearly defined as children from birth to 18 years of age who have been adjudicated a child in need of assistance (CINA). The Iowa CASA program accepts court-referred cases that meet the definition of child in need of assistance (CINA), per Iowa Code Section 232.2. The CASA program serves any child for whom the court appoints a court appointed special advocate. The court may appoint an advocate to represent the interests of a child in any judicial proceeding to which the child is a party or is called as a witness or relating to any dispositional order involving the child resulting from the proceeding. The court may appoint an advocate in a delinquency, child in need of assistance or family in need of assistance proceeding. If the plan for the child's transition from foster care to adulthood identifies services or other support needed to assist the child when the child becomes an adult and the court deems it beneficial to the child, the court may authorize the court appointed special advocate to continue a relationship with and provide advice to the child for a period of time beyond the child's eighteen birthday.
4. The Iowa CASA program solely provides trained and qualified community individuals to advocate for the best interests of children who come before the court as a direct result of abuse or neglect as defined by the state child welfare laws. All Iowa CASA advocates must submit an application, provide three personal references, complete a personal interview with CASA staff, pass background checks, completed thirty (30) hours of pre-service training and take an Oath of Confidentiality with a Judge before being appointed to a case.

### **B. Program Governance**

1. Iowa Child Advocacy Board
  - a. The board is a nine member volunteer board appointed by the Governor. The Board provides oversight to both the Court Appointed Special Advocate program and the Foster Care Review Board program. The Iowa Child Advocacy Board Administrator is hired by the State Board and reports directly to the Board regarding agency decisions and governance. The Board works to ensure that Iowa's abused and

neglected children and all foster children are well cared for and that the system designed to meet their needs is doing so in the most effective manner possible. One method of tracking data for the children served by the CASA program is the Iowa Child Advocacy Board's web-based data system.

- b. The Board is responsible for making recommendations to the Governor, Legislature, Supreme Court, Chief Judge of each judicial district, Department of Human Services (DHS), and child-placing agencies on ways to improve the delivery of foster care services.   - a. Adhere to the confidentiality policies as outlined in the Advocate P&P Manual.
  - b. Consult with the coach (or Coordinator if no coach is assigned) regarding the case to develop an Action Plan for the case which identifies goals, objectives and action steps for the advocate. A Notice of Acceptance/Confidentiality Agreement will be signed by the advocate, coach and/or coordinator which serves as the advocate's notice of acceptance for the case.
  - c. At a minimum, the advocate shall meet in-person with the child(ren) once every 30 days.
    - i. An exception may be granted at the discretion of the program staff; however, the decision to permit a less frequent in-person contact shall be documented as to the justification for and reasonableness of the exception. (Resource 30: Exception - In-Person Contact form)
    - ii. In situations where the advocate requests mileage reimbursement for case-related activities, the request and circumstances must be taken to the ICAB Administrator for consultation and consideration for approval.
  - d. Obtain and maintain firsthand understanding of the needs and situation of the child(ren) by conducting an ongoing review of all relevant documents and records and interviewing the child(ren), parents, DHS case manager, service providers, teachers and other pertinent persons to determine the facts and circumstances of the child's situation. As needed, advocates will request parental consent to release and obtain information from therapists, counselors or medical providers. (Resource 31: Health Related Consent Form and 32: Non-Health-Related Consent Form)
  - e. A court appointed special advocate may attend family team decision-making meetings or youth transition decision-making meetings upon request by the family or child and disclose case-related observations and recommendations relating to a child or a child's family while attending the meetings.
  - f. Identify needs and advocate for the best interest of the child(ren) to assure that the child(ren)'s needs are met.

Provide a written report (see Resource 33: CASA Report Template) for every hearing which includes observations and specific recommendations for the child, and when appropriate, the child's family. Significant case developments must be reported to the Coordinator for consideration of submitting an interim report between hearings. **To meet National CASA Standard 7.E.5.d, a CASA report to court that includes findings and recommendations is a requirement for every hearing regardless of whether or not a judge waives the submission of reports to court.**
    - i. **If the advocate has been assigned to the case less than six weeks, the coordinator will talk with the advocate and coach to determine if the advocate has enough information to submit a relevant report to the court. Discretion shall be left to the local coordinator.**
    - ii. An advocate shall only include a photograph of the child in his/her report to court if written consent has been granted by the child's parent or legal guardian.

- iii. Use Resource 43. Photo Release Form; a copy shall be kept in the child's case record.
  - h. Appear at all hearings to advocate for the child's best interest and provide testimony when necessary. When the advocate is not able to attend a hearing, the advocate will provide the earliest possible notice to the coach to arrange for coverage at the hearing.
    - i. Advocate will provide a written statement that includes observations since the report was submitted to the parties for the Coach or Coordinator to present at the hearing.
    - ii. Advocate will provide a telephone number that (s)he can be reached at during the time of the hearing.
    - iii. If absence is known in advance of submitting the report, a statement will be included in the CASA Report to Court in regard to the absence.
  - i. Determine if a permanency plan has been established for the child(ren) and make recommendations concerning permanency.

  - o. Participate in case progress reviews 6 months after initial case assignment, annually thereafter and in the interim if requested by the Coordinator or coach.
  - p. Participate in 12 hours of additional in-service training per year. This is prorated for the CASA's first year dependent upon the month s(he) completes pre-service training. Included in the 12 hours of additional training is the required "Securing the Human" online training which advocates will complete on an annual basis.
  - q. Complete a Monthly Advocate Update form (Resource 44), to record case contacts, brief case update, hours and miles contributed for all case activities for the month and in-service training hours completed. Submit the Monthly Advocate Update form to the coach by deadlines as identified by local office protocols.
4. When one to one situations with the assigned child occur, reasonable and sensible precautions are taken by the advocate. A CASA Advocate will make every attempt to ensure the safety and security of the child during one to one situations.
- i. These situations have the potential to make a child more vulnerable to harm by those who seek to exploit their position of trust.
  - ii. Adults working in one to one situations with a child may be more vulnerable to unjust or unfounded allegations made against them.
  - iii. When scheduling a visit with a child, the CASA Advocate will talk to the caregiver beforehand, assessing the need to have someone else present or close by during the visit.
  - iv. CASA Advocates will avoid meeting with a child in remote, secluded areas.
  - v. CASA Advocates will report any situation to the Coordinator where a child becomes distressed or angry during a visit between the advocate and child.
  - vi. CASA Advocates will carefully consider the needs and circumstances of the child when having a one to one visit.

5. A CASA Advocate will not be assigned to more than two cases at a time. An exception may be granted at the discretion of the program staff; however, the decision to permit a higher caseload shall be documented as to the justification for and reasonableness of the exception. Under the exception, an advocate will not be assigned to more than five cases.
6. A CASA Advocate will adhere to the conflict of interest policy outlined in this manual.
7. A CASA Advocate will operate in accordance to the social media policies outlined in this manual.
8. Case closure ends the CASA advocate's and CASA coach's assignment to serve on behalf of the child. An advocate is allowed to continue a relationship with the child or family if the child (or guardian for a child under age 18) desires continued contact. The advocate must make known that they are no longer serving in an official role under the auspices of the CASA program. The advocate will incur all liability for activity related to continued relationships with children and families after official case closure.

## **B. Case Record Management**

1. Advocates are encouraged to use the ICO system for their case records in place of maintaining a paper copy or storing electronic documents on their personal devices.
2. If an advocate requests a paper copy of the file, copy the case file information and prepare a working file for the advocate. Give the file to the CASA Advocate at the time of assignment.
3. If an advocate requests a paper copy of the file, any subsequent case file information received during the life of the case will also be given to the advocate for a comprehensive record of the case.
4. It is critical for advocates to realize that the materials contained in these case records are confidential and they must take precautions to safeguard their working records when they are in their possession. Violation of maintaining the confidentiality of records constitutes a serious misdemeanor.
  - a. All electronic copies must be stored in a password protected folder.
  - b. Paper copies must be kept in a secured location.
5. Upon case closure, the advocate must delete all electronic documents and return the complete case record to the office within two weeks if s(he) has printed case documents. The CASA case record is shredded upon receipt by the program staff.

3. If an Advocate does not submit hours and miles on the Monthly Advocate Update, program staff enters zero (0) for that month's hours and miles in ICO for the advocate. ## ICAB ELECTRONIC AND SOCIAL MEDIA POLICY FOR STAFF AND VOLUNTEERS

Electronic and social media, when used appropriately, can be a powerful tool to increase awareness, support and sense of community for those of us engaged in advocacy for abused and neglected children. It is important that those who choose to engage in social media understand what is recommended, expected and required when they discuss CASA-related topics. Our ability to serve children depends entirely on the trust and support of our community, and it is critical that we handle the confidential information entrusted to us responsibly. *(This introduction is adapted from the National CASA Association.)*

**When you engage in social media and online communication, you become a public figure. As a public figure that is associated with CASA, you have a responsibility to help protect this organization and our clients.** The following expectations are intended to give you guidance in both promoting and protecting CASA, and to protect the children we serve.

### **Purpose and Scope**

The purpose of any electronic or social media site created/used by ICAB staff is to provide news, in-service training opportunities and other CASA Program-related materials to CASA volunteers serving in Iowa. It is also intended to provide program staff and volunteers a site through which program-related current events and training topics can be discussed. It is not intended nor should it be used as a site to post or exchange information about actual cases that could be used to identify a specific child or other specific parties in a case involving child abuse and neglect or any other information which program staff and volunteers are required to keep confidential by law or policy.

Comments submitted to sites will be reviewed and, at the sole discretion of program staff, a representative sample may be posted on the site or comments may not be posted. In addition to the prohibited information enumerated above, the following forms of information will not be posted:

- a. Comments not topically related to the particular content being commented upon;
- b. Profane language or content;
- c. Use of harassing language or tone;
- d. Content that promotes, fosters, or perpetuates discrimination on the basis of race, creed, color, age, religion, gender, marital status, status with regard to public assistance, national origin, physical or mental disability or sexual orientation;
- e. Obscene sexual content or links to obscene sexual content;
- f. Solicitations of commerce;
- g. Conduct or encouragement of illegal activity;
- h. Information that may tend to compromise the safety or security of the public or public systems;
- i. Information or content that violates a legal ownership interest of any other party; or,
- j. Information that promotes or opposes any person campaigning for election to a political office.

### **User Expectations:**

#### **1. Staff**

- a. Are permitted to develop and use social media tools as a recruitment and information tool as time allows. This is not a required part of job duties.
- b. Post information about events such as swearing-in local volunteers, interesting articles/videos inspirational quotes and other events at the local or state level.
- c. Have volunteers sign a statement prior to swearing in that gives permission to use their photo for online purposes.
- d. Staff shall notify judges that photographs taken of them may be used in print or electronic media.

- c. Are not allowed to friend or follow anyone who would fall under the confidentiality policy such as children, family, foster parents and caregivers.
- d. Cannot use social media to express their opinions about the child welfare process, a ruling, an action taken by a professional or someone on their case.

### **Information Subject to Public Disclosure**

The information submitted to this site is subject to the access and confidentiality provisions of Chapter 22 and any other applicable sections of the Code of Iowa. Any content posted may be subject to public disclosure including Open Records requests.

In addition, ICAB staff and volunteers will adhere to the *National CASA Association Online Communication and Social Media Guidelines for Staff and Volunteers and Social Media Posting Policy*.

## National CASA Association Online Communication and Social Media Guidelines for Staff and Volunteers

The National CASA Association believes that social media tools, when used appropriately, can be a powerful tool to increase awareness, support and sense of community for those of us engaged in advocacy for abused and neglected children. We believe that a thoughtful approach to online conversation and interaction among people online (on blogs, social networking, link-sharing, etc.) can enhance the reputation of the CASA and GAL movement and help recruit needed supporters and volunteers.

While National CASA encourages CASA and GAL staff, board members and volunteers to join the global online conversation, we also believe it is important that those who choose to do so understand what is recommended, expected and required when they discuss CASA-related topics—whether at work or on their own time. Our ability to serve children as a national cause depends on the trust and support of the American public, and it is critical that we tell our story well—and handle the confidential information entrusted to us responsibly.

The following 10 guidelines will help you engage in online conversations about your involvement with the CASA cause in a way that is appropriate, yet still interesting. This policy document is built largely on the work of the American Red Cross, IBM, CBS Interactive and CASA of Franklin County, OH. We thank these organizations for disclosing their policies publicly so that all of us can learn from them.

### ***10 Online Communication and Social Media Guidelines***

1. **Be transparent.** Identify yourself and your role at the CASA program (staff/volunteer/board member) when you discuss CASA-related matters. Write in the first person. If you have a vested interest in something you are discussing, be the first to point it out. Be clear that you are speaking for yourself, that the opinions expressed are solely those of the author and do not necessarily represent the views of National CASA or your state or local CASA program (unless, of course, you are posting as part of your employment responsibilities for a program—as a communications or online outreach manager, for example).
2. **Always comply with the law in regard to copyright/plagiarism.** Never post someone else's work without their express permission (other than short quotes that comply with the "fair use" exceptions).
3. **Be aware of laws related to libel and defamation of character.** Defamation of character can lead to lawsuits against the author of the statement and will reflect negatively on the CASA cause. In choosing your words or content, imagine your supervisor and your family reading everything you post.
4. **Be respectful.** Don't pick fights. Be the first to admit and correct your own mistakes. You should show proper consideration for other's privacy and for topics that may be considered objectionable or inflammatory, such as politics and religion.
5. **Be considerate.** Remember that anyone, including fellow volunteers and CASA staff, may be actively reading what you publish online. Refrain from any communication intended to bash or embarrass your state or local CASA program, families, board members, donors or your

colleagues. If you have suggestions for improvements, please state them constructively or, better yet, go through the proper channels to air your concerns and share your suggestions.

6. **Be accurate.** Even though your posts may be primarily made up of personal opinion, do your research well and check that your facts are accurate. Make sure you have permission to post any copyrighted or confidential information (e.g., images, statistics), and be careful about posting or linking to items that may contain viruses.
7. **Be committed.** If you decide to jump into online communication, do so with a commitment to post regularly and well. Link to others and show your unique contributions. Make it interesting and have fun!
8. **Try to add value.** Does your posting provide worthwhile information and perspective? Does it help you, your coworkers, volunteers and supporters better understand and feel more connected to our cause? Does it build a positive sense of community?
9. **Respect work commitments.** Please remember that blogging and other social networking activities—unless specifically assigned as part of your employment—are personal and should be done on your own time. The obvious exception is if you have specifically been assigned to perform an online activity related to your responsibilities as a CASA employee or volunteer.
10. **Don't reveal confidential information.** Sharing stories that illustrate the value of CASA advocacy for children is often the most powerful way to engage the public in our cause and promote empathy for the children we serve. However, National CASA Quality Assurance standards require:
  - Respect for the children's and families' rights to privacy in regard to personal information
  - Adherence to the confidentiality restrictions imposed by law and CASA policies and procedures

**It is unacceptable to discuss online any identifiable details of cases.** It is acceptable to discuss general details and to use non-identifying pseudonyms so long as the information provided does not contain information recognizable to the family or others associated with the family or case. For example, use general terms such as "youth" instead of "13-year-old girl." You should be careful to protect the dignity of families, children and social agencies, even if they are not named.

Volunteers and staff should not link to personal pages (or become online "friends") of families or children they may encounter in their capacity with the CASA/GAL program. This includes email addresses, instant messenger names, blogs, photo sharing sites and social networking sites such as Facebook, MySpace, Twitter and YouTube. In addition, many programs prohibit volunteers from giving their email address or cell phone number to the child(ren) or family members on any case to which they are assigned.

Online communications and social media tools enable individuals to share insights and information—and express opinions—within the context of a globally distributed conversation. They support the democratization of knowledge and information and transform all of us from simply content consumers to content producers. If we follow the above guidelines, this exciting, evolving technology can be harnessed to help us all make a difference in the lives of abused and neglected children.
